

Crazy Pictures new feature will be a great adventure

UFO Sweden is the film collective Crazy Pictures' new big movie adventure. A nerve-wracking and touching film experience located in a 90s Sweden. It can almost be described as a cross between Stranger Things and The X Files straight down in Sweden. UFO Sweden is Crazy Pictures' first film since the international success of the film The Unthinkable (2018).

When a foster home-placed teenage rebel suspects that her father is not dead but kidnapped by UFOs, she takes help from a UFO association to find out the truth. Together, they embark on a risky adventure that takes them far beyond the law's borders and into a world filled with UFO expeditions, conspiracies and inexplicable phenomena.

This is the pitch for Crazy Pictures' new adventure film. The film collective got the idea when they heard that there was an association that works with investigating mysterious phenomena and is called UFO-Sverige. Crazy Pictures contacted the association and it turned out that the enthusiasts in the association also ran the world's largest ufo archive, Archives for the unexplained, in Norrköping, Sweden. Crazy Pictures' meeting with the association was the starting point for the project and the association has since been a great inspiration for the film.

"We understood that they were working on investigating and researching unexplained phenomena and we were completely taken by it. We felt an enormous fascination for UFO-Sverige as an association but also for the world filled with UFO expeditions, mysterious phenomena and the giant archives that surround the association. Of course, we could not help thinking "what if they find something". says Olle Tholén at Crazy Pictures

The 17-year-old shooting star Inez Dahl Torhaug makes her feature film debut and plays the main character Denise. Other roles are played by Jesper Barkselius, Eva Melander, Oscar Töringe and Sara Shirpey.

"When I read the script, I was so excited, this is really such a big and unique project. It's also very exciting to have the chance to play such a strong and cool character as Denise. And to be able to do all this together with Crazy Pictures means that I always leave the shooting with a smile on my face", says Inez Dahl Torhaug.

The film is expected to be released in Swedish cinemas in December 2022 by distributor SF-Studios, which also is investing heavily in the project. SF Studios distributed Crazy Pictures' international hit film The Unthinkable. In total, it has been sold to over 100 countries and seen by 115,000 Swedes in the cinemas.

UFO Sweden produces by Crazy Pictures in co-production with SF Studios, SVT and Film i Väst with support from Norrköping Film Fund, the Swedish Film Institute and Nordic Film & TV Fund. The film is distributed by SF Studios in the Nordic region and is expected to have a cinema premiere in Sweden during Christmas 2022. The Danish sales company Relnvent will handle the international sales.
